Dimitar Anastasov

JS Developer
Bulgaria

Summary

Professional with a “Can Do” attitude. Excels at fast paced environment and keep’s temper in stressful situations. I firmly believe & practice continuous improvement with emphasis on the systematic approach.

Experienced in wearing many hats. Ability to support and develop teams.

Leader accomplished in directing operations in small companies and start-ups with 7 years of practice. Talented at creating strategies, setting goals and training employees. Skilled at mentoring staff, integrating ideas and customizing approaches to reach specific objectives. Qualified to help service companies streamline processes, strengthen teams and improve quality of internal and external process. Resilient and pragmatic with good eye for both important details and big-picture needs.

I am connect the dots guy.

And dots can be anything: people, movement, ideas, projects. So if you feel stuck, I might be able to help you or know who can help you.

Experience

Telerik Academy School
JS Web Developer
January 2023 - Present (8 months)
Sofia - Remote

JS Web-Development Alpha Program:

We have went through few modules covering both theoretical knowledge of the subject but also practicing and applying main concepts in a project based group setting.
